EDUCATION

VIT Bhopal University (CGPA: 7.68)

Bachelor of Technology (B.Tech) in Computer Science (AI & ML)

Bhopal, India

2023 – 2027

SKILLS

Product & Business: Market Research, User Needs Analysis, Requirement Gathering, Feature Prioritization, Roadmap Planning, Competitive Analysis, A/B Testing Fundamentals, Cross-Functional Collaboration, Stakeholder Communication **Data-Driven Decision Making:** SQL, Excel, Data Analysis & Visualization, Google Sheets, Basic Python for Analytics **Tools & Ways of Working:** Agile/Scrum Fundamentals, Git/GitHub (documentation & version tracking), Notion, Google Workspace

PROJECTS

CRS – Intelligent Crop Recommendation System

May 2026

Product Owner

- Identified a core pain point for farmers – lack of data-backed crop selection – and led end-to-end product development from user research to a deployed solution.
- Made a build-vs-scope tradeoff to recommend the **top three crops with confidence scores** instead of a single answer, increasing decision usefulness for end users; reached **80%+ accuracy**.
- Coordinated integration of live field data and third-party weather sources to keep recommendations timely and relevant to actual farming conditions.

C2C – Conflict-to-Capital Intelligence Dashboard

Jul 2026

Product Lead, Cross-Functional Team

- Scoped and led a product that translates unstructured geopolitical news into actionable financial risk insights for analysts and investors.
- Coordinated three teams (research, backend, and design) to align on a shared product vision and consistent data definitions.
- Prioritized a sentiment and risk-scoring feature as the core differentiator, turning raw news into a structured, decision-ready score for end users.

ShareEd – Educational Resource Sharing Platform

Apr 2025 – Jun 2025

Founder & Product Designer

- Conceived and built a collaborative platform to solve student pain points around resource discovery and doubt resolution, from concept to launch.
- Prioritized an instant doubt-resolution feature based on identified user friction, improving engagement without requiring human moderation.
- Designed information architecture (curriculum-based categorization) to improve discoverability and navigation across subjects.

LEADERSHIP & EXTRACURRICULAR

Class Representative

VIT Bhopal University

Elected by peers for 2-3 semesters

2023 – Present

- Served as the primary liaison between students and faculty, gathering and prioritizing recurring academic concerns to raise with department heads.
- Repeatedly re-elected by classmates across multiple semesters, reflecting sustained trust and consistent follow-through on commitments.

Smart India Hackathon 2025 – Team OneView

National Competition

Team Member – CampusConnect Lite

2025

- Contributed as part of a 6-member team that advanced to the **top 45 out of 950+ teams (top 5%)** with a proposal for the Government of Rajasthan tackling fragmented, manual student record-keeping in public colleges.
- Owned the automation layer built on Google Workspace (Forms, Sheets, scripts), enabling low-cost digitization of records without requiring expensive proprietary software.
